RE: RFP CMA-2401  
WATER MAIN CONSTRUCTION  
ADA SIPIUEL AVENUE AT UNION PACIFIC RAILROAD  
CHICKASHA, OK

Dear Sir:

After carefully reviewing the bids submitted on October 10, 2024 for the referenced project, I find that the lowest responsive bid was submitted by Bear Creek Construction of Clinton, Oklahoma. Please refer to the attached detailed Bid Tabulation and Bid Tabulation Summary for more information.

This project consists of installing a large diameter water main (16 inches) under the Union Pacific Railroad along Ada Sipiuel Avenue. It is needed to eliminate a dead-end line at the railroad near Texas Avenue and serves as a first step in providing large volume, high pressure water supply to the part of town east of the railroad tracks.

One addendum was issued during bidding to provide additional information regarding Union Pacific requirements for construction. One mathematic error was discovered in Bear Creek's bid amounting to \$1,980.00. The correct value and correct total bid price are listed in red on the detailed bid tab.

Bear Creek Construction is a companion company to Okie Construction which has pipeline construction experience since 2012, primarily in the petroleum industry, and has successfully completed water main construction projects. It is my recommendation that the Chickasha Municipal Authority ratify Addendum 1 as described above, waive the mathematic error as a technicality and award a contract to Bear Creek Construction, LLC for CMA-2401 Water Main Construction in the amount of \$480,071.00.

If you have any questions, or require additional information, please do not hesitate to call me.

Sincerely,

R. Scott Vaughn, P.E., CFM
